PHONE & SMALL DEVICE

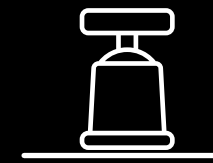

SECURE MOUNTING FOR HANDHELD DEVICES AND TOOLS

Mob Armor has developed a line of smartphone mounting products over the years to be the toughest and most versatile mounts out there. From magnetic dashboard mounts like the MobNetic Maxx, to solid cradle mounts like the Mob Mount, to wireless charging mounts like the FLEX Series, we have something made for any road, any environment. With multiple mounting bases and adhesives, our mounts are made to mount practically anywhere in your vehicle, house, office, workshop, and more. Mob Armor designs and assembles all of our mounts right in America, while coming with a rock-solid 3 year warranty.

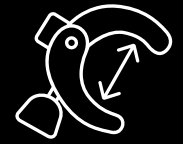

Mounting Base for Any Location

MAGNETIC MOUNTING

DIRECT MOUNTING

CLAW MOUNTING

Secure Options for Any Device

MobNetic Series

Our answer for the everyday, everywhere mount. These magnetic phone mounts lock your device in place with 90lb pull-force magnets for effortless on-and-off mounting. Perfect for smartphones, tools, and other small devices.

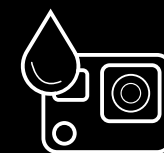

Mob Mount Series

The simple single-slide cradle phone mount for any vehicle - locking your device on your in place for the toughest of roads and the most rugged terrain. Comes in large and small sizes to accommodate nearly any size device.

FLEX Wireless Charging Series

Both Apple MagSafe and Android Qi Wireless Charging compatible, the FLEX Series provides a magnetic wireless charging and mounting solution stronger than any other. Plus, it's compatible with all of our MobNetic phone mounts when on the go.

Action Camera Mounts

Our best phone mounts, made compatible with popular action camera mounting hardware. Capture the most extreme moments from nearly impossible angles with the Magnetic, Claw, or Direct mounting options, sold individually or as a bundle.

MOBNETIC SERIES

THE EVERYDAY, EVERYWHERE MOUNT.

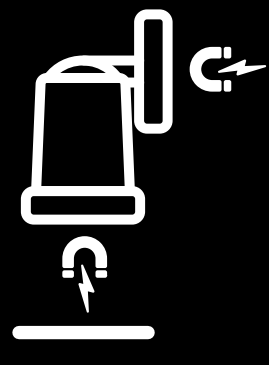

Designed with rare-earth 90lb pull-force magnets, our MobNetic phone mounts are designed for everyday use with easy on-and-off mounting. With options for permanent, claw, and on-the-go mounting solutions, there's a MobNetic mount for everyone.

THE MAGIC OF MOBNETIC

The MobNetic mounting system works in the simplest way possible - magnets. The 90lb pull-force magnets hold your device in place for easy everyday use, while mounts with a magnetic base are held solidly in place for even the toughest of roads.

The magnets work with any ferrous surface - workbench, metal dashboard, even your fridge. When you need to mount it elsewhere, simply adhere the included Mounting Discs wherever you need them, providing a perfectly sized ferrous surface on your dashboard, desk and more.

With all of the possible combinations of magnet, claw, cradle, mounting discs, charger, and more, the MobNetic series mounts are truly **everyday, everywhere** mounts.

WIRELESS CHARGING SERIES

FLEXIBLE MOUNTING. FASTER CHARGING.

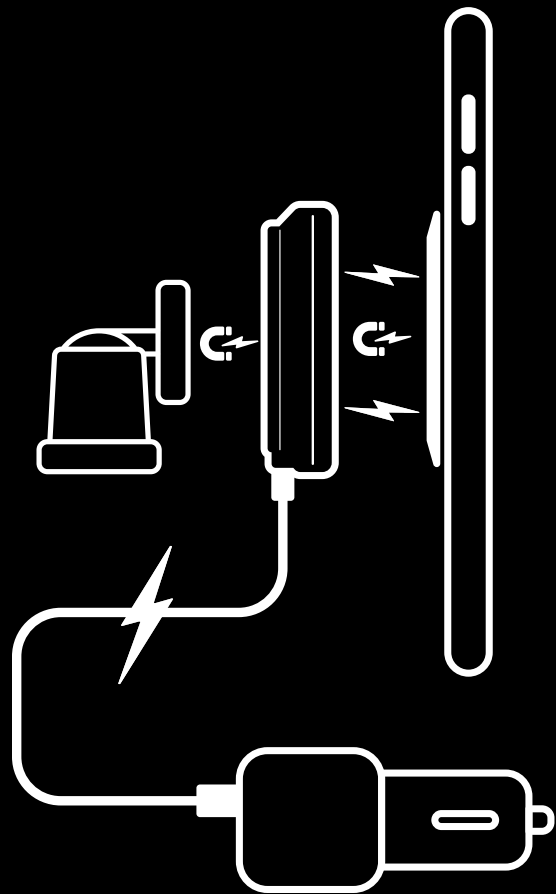

The Mob Armor FLEX Series is a revolutionary magnetic wireless charging and mounting solution that gives you fast 15W wireless charging with an easy-to-use, secure mounting system that is compatible with both iPhone and Android phones. With the FLEX Series, you can charge your phone quickly, securely and with ease.

ALL ABOUT THE FLEX SYSTEM

Mob Armors FLEX mounting system builds upon existing magnetic wireless charging technology, creating an even stronger magnetic wireless charging bond for the toughest of environments while retaining fast 15W wireless charging. When paired with one of our MobNetic magnetic phone mounts or countless other mounts available, the mounting and charging options are practically endless.

The FLEX system consists of a few parts working in unison. First, attached to your phone is the Mag FLEX Plate - a thin, round disc the same size as a Qi wireless charging array with a magnet array built in. This creates a stronger-than-MagSafe bond with the FLEX Magnetic Wireless Charger, which is connected USB-C to USB-C to our 38W Dual USB Car Charger, or a wall outlet.

On the rear of the FLEX Magnetic Wireless Charger, you can attach one of our MobNetic phone mounts to prop up the charger in nearly any angle you desire - creating the most versatile mounting and charging solution on the market.

SKU: MAG-FLEX-WC

- Rugged 15W wireless charging system, built for everything from your daily commute to a long offroad excursion
- Designed specifically to work with your existing MobNetic phone mount, upgrading to an easy on-and-off charging and mounting solution
- Compatible with both Android and Apple devices. Works seamlessly with MagSafe wireless charging, and even adds magnetic wireless charging capability to Qi Wireless Charging Android devices
- USB-C charging cable, Mag FLEX Plate, and alignment template also included

SCAN TO

TABLET

LOCK DOWN ANY DEVICE

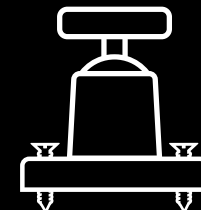

Mob Armor tablet mounting products are renowned for their versatility and reliability. Boasting multiple mounting options, you can use them in a variety of settings. Not only that, but they provide superior strength and durability - essential when you need your device to stay put. For peace of mind, every Mob Armor tablet product comes with a three year warranty.

Whether you're in the off-road trucking industry, working on the sea, involved in industrial work or construction, or managing a storefront, you can trust Mob Armor to securely mount your tablet. With our products, you have the confidence that your device will be held firmly and securely no matter what environment it's in.

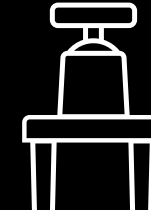

Mounting Base for Any Location

FLUSH MOUNTING

Secure Options for Any Device

TabNetic Series

To put it simple, one of the easiest tablet mounts you'll ever use. With a 290lb pull-force magnet on top, you can easily pop your tablet on and off for everyday light and medium duty use, both in and out of your vehicle.

Tab Mount Series

The three-slide cradle holds any tablet sized 7-13", locking it in for even the toughest of tests. The Tab Mount is the ultimate heavy duty tablet mount, capable of practically anything you throw at it.

75mm VESA & Quick Release Series

Designed specifically for use with our T-Series tablet enclosures, these are our mounting solutions for extreme conditions. The standard 75mm VESA pattern is also compatible with many other VESA devices, such as monitors and equipment.

TABNETIC SERIES

THE MOST VERSATILE MOUNT FOR LARGE DEVICES

The TabNetic series allows for a quick-release docking location for devices such as tablets, small monitors, and tools with 290lb pull-force magnets. TabNetic mounts also work seamlessly with all of our tablet enclosures.

All TabNetic products come with two steel shield plates that can adhere to any device using a powerful and non-marking 3M VHB.

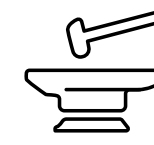

TABNETIC

SKU: TABN-MX-TUBE **MAXX** TUBE

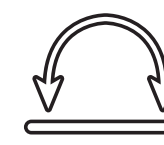

- Adjustable double clamp base locks the mount on to any tube or bar 1.5-2" in diameter
- 290lb pull-force magnet and all-aluminum housing allows for use in rough environments
- Two notches on either side of the ball housing offers 180 degrees of device tilt, and 360 degrees rotation.
- Package includes 2 TabNetic Plates for your devices

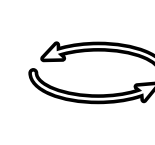

290LB PULL-FORCE MAGNET

- 4.25" x 2.5" solid metal base with screw holes allows you affix the mount to nearly any flat surface. All necessary hardware included

TAB MOUNT SERIES

UNIVERSAL TABLET MOUNTING

The Tab Mount was created to perform in the most unforgiving terrains. Manufactured with aircraft grade aluminum and industrial materials, this is the mount can handle practically any adventure you throw at it.

UNIVERSAL, UNIQUE TRIPLE SLIDE DESIGN

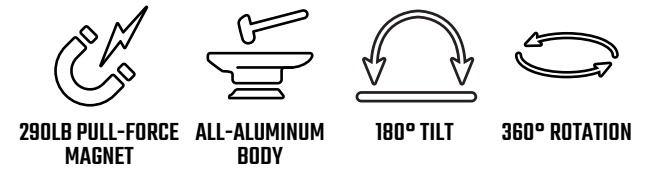

With a lightweight yet durable powder-coated aluminum alloy cradle, the Tab Mount system is designed to hold most tablets sized 7" to 13", and up to 1" thick with or without a case.

The unique triple slide design locks in tablets of practically any aspect ratio, with a simple twist-to-tighten design. Also included with every Tab Mount are adhesive closed-cell EVA foam pads, meant to close the gap between your tablet and the mount and protect it from vibration on rough trails.

With different mounting bases for different vehicles and purposes, the Tab Mount is the most capable tablet mounting solution on the planet.

TAB MOUNT MAXX MAGNETIC

TOP ZIPPER ACCESS

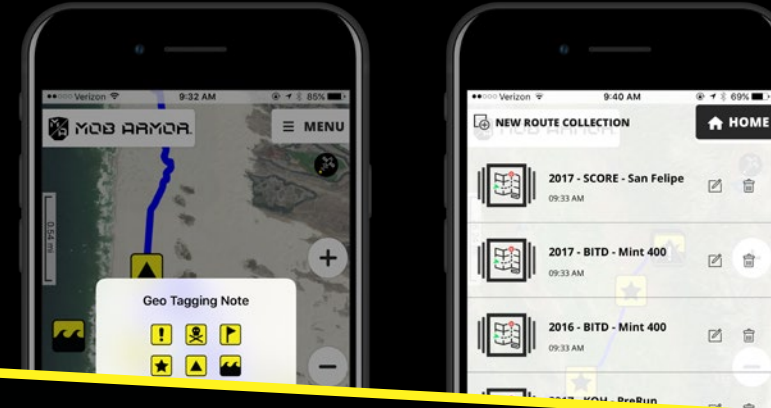

BOTTOM ZIPPER ACCESS

MOB ARMOR GPS

OFF ROAD GPS NAVIGATION

- Modern user interface and streamlined features convey information faster than any other GPS, letting you explore the world around you, and help you get back safely
- Track and monitor latitude, longitude, speed, elevation, and more
- Mark points of interest, save, edit and share your tracks and routes, plus download tracks of world renowned routes and events
- Free 30 day trial for all new users

STAY ON TRACK WHILE OFF THE GRID

Tracking/Routes - Fast and Streamlined tracking will leave a trail of "breadcrumbs" that will allow you to move freely without concern of finding your way back to origin. Speed, distance, and elevation data is collected for each track. Turn Tracks into Routes and organise them in folders to keep all your favourite off-road locations and race files easy to access and share.

Performance Mode - Performance Mode is designed for racers to provide more information, and remove the possible problems associated with touchscreen in race environments.

Range Rings - These rings are accessed in the race mode menu and help users see distances as they approach turns and way-points.

Latitude & Longitude - Enter in coordinates in Decimal Degrees format to drop a pin to find exact points of interest.

GPS Configurations - Change between internal GPS receiver and the Dual Sky pro XGPS150 receiver via Bluetooth. Check GPS status and current Lat/Long coordinates to share.

Map Options - Choose between Satellite Image Maps, or standard maps to help with situational awareness.

Race Features now includes the ability to import GPX files and edit waypoint flag/icon. Add/edit texts and create geofence voice announcements.
